ORDER INFORMATION FOR ALUMINUM STRUCTURES DESIGN MANUAL PREPAYMENT IS REQUIRED

Thank you for your interest in subscribing to Lawrence E. Bennett's "ALUMINUM STRUCTURES DESIGN MANUAL". Following is an order form/agreement.

All subscribers must be licensed to build aluminum structures and agree to take the Design of Aluminum Specialty Structures course (a continuing education credit course) within six months of purchasing the manual, and every two years thereafter. A list of available class dates is posted on our website, lebpe.com.

When you return the completed order form along with payment, you will receive the latest version of the Aluminum Structures Design Manual on CD that you will use to print out copies of details for your permits. You may take the CD to a print shop to have a printed copy made if you desire.

You also will receive letters of authorization to put on file at the building departments. We send seven letters, but you may request more as needed at no extra charge. Please be sure to fill out the order form completely as this information will appear on your Letters of Authorization. Please make check payable to Bennett Engineering Group, Inc. We accept Visa, Mastercard and Discover.

The CD and letters will be shipped via UPS. There is no extra cost for shipping unless you require overnight shipping, then add \$25.00. Generally, the manual will arrive in two to three business days.

ALUMINUM STRUCTURES DESIGN MANUAL ORDER FORM

Initial Fee is \$600.00. To order, please fill out the form and mail with payment to address above. Make check payable to Bennett Engineering Group, Inc. If you wish to use Visa, MC or Discover, please check here _____ and fax order form to us. We will contact you for the card information.

You must be a licensed contractor and have the following minimum education requirements to subscribe to the Aluminum Structures Design Manual:

1. Education required by the State for your license.
2. Attendance of my continuing education class. New clients must sign up for a class within six months of purchasing client services to use the Manual or Site Specific Drawings.
3. Contractor further agrees to attend my ASDM continuing education class every two years after purchasing the Aluminum Structures Design Manual and engineering services.

Please note, site specific review services are available only to current clients of the Aluminum Structures Design Manual.

By signing and returning this invoice/contract, I agree to the conditions stated in this contract as required by Florida Law 489.113 that I have or will within six months of date of contract, meet the basic education requirements to use the Manual or Site Specific Drawings.
